Robyn Mathias
CHPNA

ABOUT

There's a reason Robyn Mathias has been with Hosparus Health for 28 years - she says it's a calling. "Why I'm here is a good question, I believe this is where God planned me to be. I never would have thought that this would be my specialty but now I can't imagine doing anything else in my life. It's truly a blessing being able to walk through this part of life with people. It is the most awesome, rewarding feeling to get so many smiles and special 'thank you's' each and every day from the patients and families I visit."

Currently, Robyn works on the HL-Southwest team, primarily focusing on Bullitt County. A typical day in her world involves making calls, gathering supplies, and helping patients with tasks such as bathing (assist with all ADLs), changing bed linens, providing wound care if needed, etc. She also spends a lot of time with families, educating them on end-of-life and bed-bound care. Robyn stays in contact with her team nurse all day long and believes this is a very essential task that keeps things running smoothly. She is with families in the event of a death of their loved one. She laughs and cries with her patients and their families; offering hugs, a listening ear, or even smile when needed.

"Robyn's care, heart, humor, and humanity connects with patients at the most vulnerable points in their lives; touching them in ways that no one else can."

- co-worker

Patients, families, and her co-workers think the world of Robyn. Her supervisor, Sara Williams, says "When I think of Robyn, the words that come to mind are: kind, thoughtful, compassionate, empathetic, willing to go the extra mile, puts others above herself and committed. Robyn truly believes in her job and completes each day to her fullest. She is always willing to work extra to help others, regularly precepts new CNAs and is devoted to a better documentation system."

In her spare time, Robyn's biggest passion is riding her motorcycle. As she says, "it's my relaxing place". She also has 3 nieces and 10 great-nieces and nephews that are everything to her. She even has the honor of being one of her nieces Godmother.

FUN FACTS

Favorite ice cream flavor

I just love all ice cream! Pretty sure I would give up a meal for it.

Favorite musician

I love all kinds of music but I would say Bon Jovi is definitely at the top.

If you could learn to do anything, what would it be?

I guess it would be how to get rich :)

Where's your favorite place in the world?

Riding my motorcycle out on the open road.

Favorite show you are currently watching?

Big Bang Theory & Mom

Robyn will be receiving the Dr. Joe Rotella Compassion Award at Hosparus Health's Candle Glow Gala on December 1st, 2018.
